

Standards and Certifications

cGMP

Our facility adheres to cGMP and our products are regularly tested at reputed labs like SGS for various parameters such as microbiology, heavy metal content, algal toxins and pheophorbides.

GRAS:

Parry's Spirulina has been self-affirmed as GRAS at an acceptable daily intake of 20g.

Always meets USFDA Health Standards, JHFA etc.

USP Verification

Parry Nutraceuticals has received US Pharmacopeia authorization allowing the use of 'USP Ingredient

Verified Mark' on Parry's Spirulina powder. This guarantees that the ingredients:

- are consistent in quality from batch to batch
- comply with label or CofA claims for identity, strength, purity and quality
- are prepared according to approved and accepted manufacturing processes
- meet requirements for acceptable limits of contamination

USDA Organic

Certified Organic by the Institute for Marketecology (IMO), Switzerland as per USDA's National Organic Program.

Naturland

Certified Organic Spirulina as per the stringent Naturland Standards of Germany that allows the use of only vegetarian and certified organic inputs in the production process.

ECOCERT

Parry's Organic Spirulina powder and tablets have been certified Organic by ECOCERT SA, France.

HACCP Food Safety Management

Parry's Spirulina has a unique advantage of being grown in an algal facility that is Certified HACCP - Food Safety Management.

ISO 9001
